

**DR. PETER T PHAM**  
& ASSOCIATES

---

## **To Our Valued Patients:**

As of 3/17/2020 the Centers for Disease Control (CDC) has recommended the suspension of all routine eye care services in addition to a variety of other services. This does NOT include emergency or medical services at this time. Please take these CDC recommendations into consideration when scheduling an appointment with our office.

### **What does this mean for you?**

Although our offices are closed we will still be available for emergencies to help reduce the burden on our hospital systems during this time. Dr. Pham will be available for red eyes, eye injuries, sudden vision loss or other urgent issues for both new and established patients. Our offices can be reached between the hours of 12-5p M-Sat at:

- Manassas Phone (Tentative to change based on mall hours): (703)257-7580
- Gainesville Phone: (571)248-6248

We are also looking into telemedicine to help us meet your needs at this time while still keeping us all safe. We hope to deliver this service to all our patients in the near future.

### **Let us check one thing off your to do list!**

The last thing you need to worry about right now is running out of lenses! We know you were last seen in our office about a year ago and may be running low on your contact lens supply. For your convenience you can also order your contacts online at: <https://drphamod.myeyestore.com/>

In our efforts to be proactive against COVID-19, we are extending contact lens prescriptions for our existing patients up to 6 months to allow those wearing lenses to still maintain a healthy wear schedule and limit the risk of eye infections until an annual exam can be done. We are thinking of your eyes during these times and the last thing we want is for you to over wear your lenses!

We plan to resume our normal business hours ASAP. We hope to see you soon and we thank you all for your cooperation at this time. Thank you for trusting us with your eye care needs! Take care of yourselves and take care of each other!

Stay safe and God bless!
